"I'm Convinced You Give Every Man a Square Deal"

The above compliment was paid us by a satisfied customer: hence, don't you believe there must be others of the same opinion? In a town of less than four hundred people, with fierce competition on all sides, we have in eight years built up a Banking business of over

As The Hill Counties See Us.

The Carlisle Mercury says: We have written and published our opinions of the 1910 tobacco crop several times, and as usual some have misconstrued our position, but that matters little. Those who have managed the pool here have decided to go ahead with the of 1910, and leave it to the poolers themselves whether the pool is strong enough. This being so we shall support them in the fight, but with the distinct understanding that the big blue grass counties join in the work. We are in favor of holding our pooling contracts until the "big ones come across clean," and if they refuse then we are in favor of throwing down the bars and going to the best market in sight. As long as the counties designated as "Hill Counties," make the market and pay the expenses, it is a certainty that the Blue Grass counties will take advantage of the situation and stay out of any pool. This may be business on their part, but it is a mean spirit.

Our idea is that instead of sending orators to the Blue Grass counties, that real farmers and tobacco raisers be sent, and sent with authority to speak for their neighbors, and speak with no uncertain words. Let them know that they can not stand seven cent tobacco any better than can. Let them know this is no idle threat, but a solemn and serious fact, and if they can see their one hundred and one hundred and fifty dollar land decrease one half we can stand a like fall in ours.

The trouble is that these

few lines will never reach those who are most interested in them, and consequently will have little influence in awakening the Blue Grass fellows to a realization of the condition of things.

\$28,000,000

Stolen During Past Five Years by Bank Officials and Government Employees.

Theft from two banks alone within the last few weeks have compelled the attention of the American Bankers' Association to this class of crime. That it is on the increase is shown by perusal of the records for the last five years, during which time more than \$28,000,000 has been embezzled from banks and trust companies in the United States.

In the federal prison at Leavenworth, Kansas, where prisoners are received from all over the country, the banker convicts exceed every other class of prisoners except burglars and mail robbers. There are thirteen former officials of banks doing time in Riverside prison, Pittsburg. The number of banker convicts in Sing Sing could not be ascertained, as the records were not available.

The number of bank officials and the total amount of thefts recorded do not tell the complete story of bank thefts. To avoid publicity, the banks frequently take their losses without reporting to the authorities or prosecuting offending employees.

A Truthful Assertion.

The worst habit that boys can fall into is that of loafing around on the streets at night. In is then they cast their lot in slippery places when at any moment they are likely to fall from grace. All good and noble lessons taught them by their mothers are there counteracted and nullified. They learn nothing that is good—but everything bad. The boys who spend their evenings in the sacred precincts of the home, with good books for their companions are the future hope of this republic; they will fill our legislative and congressional halls, and sit in judgment on men and measures, while the boys who run the streets will fill our penitentiaries, almshouse and lunatic asylums. Parents who are responsible for these broken laws of decency will have broken hearts and bowed heads in the awakening years that will inevitably follow.

Too Much Praying.

Another preacher has gone and overdone it. A meeting for supplications for rain was apparently answered the same day this week with a downpour which destroyed millions of dollars worth of property in West Pennsylvania. Perhaps after all, it might be better to let the Lord manage these things.—Lexington Herald.

THE FOOT

EAZER ...

The "Foot Eazer" eases the feet. This the most practical foot resting device ever devised. Consists of two springs, base supporting plate, and inner spring of finely tempered German Silver, leather covered. These springs are riveted together with German silver rivets at heel and are allowed to be free in front;

These Features Make "Foot Eazers" Most Unique

- 1st—Self-adjusting and even pressure to all feet, either high or low instep.
- 2nd—Equalizes the body's weight by bridging it from heel to toe.
- 3rd—With the double spring feature, the top plate slides back and forth on the under spring—hence does not cut or gouge the insole.
- 4th—Gives just the right pressure at just the right spot.
- 5th—Being self-adjusting, instantly relieves all muscular strain and pressure on the membranes that hold the articulations.
- 6th—As it is springy—easy to wear and has a tendency to develop the muscles thus enabling a complete cure.
- 7th—Light in weight so that every one can instantly wear and be permanently benefited.
- 8th—Applicable to all forms of tired feet and limbs; also severe cases. Can be worn in any shoe unnoticeable.

Messrs. Hamilton Brothers:

Gentlemen: Your Foot Eazer Arch Supports are the greatest relief I have ever found. They distribute the weight of the body over the entire bottom of the foot and by raising the center ball of foot and heel are not only relieved of so much weight, but the foot is prevented from pressing forward thereby allowing corns and bunions to cure up. I cannot praise them too highly.

Very truly yours,
